See what the Autodesk's AutoCAD reference archive has to offer. AutoCAD History AutoCAD, along with the other Autodesk products, has evolved and changed over the years. This section looks at AutoCAD's history. AutoCAD History - Introduction The AutoCAD company was founded in 1977 by students Jeff Murray and Jeff Pussell from the University of Utah, and it was originally named ADT (Autodesk Data Translation). ADT was a small company developing CAD software for the marketplace and was later named Autodesk in 1981. By 1986, the company had become Autodesk. AutoCAD History - Development The first version of AutoCAD was released in December 1982 and was named Release 1. AutoCAD, along with the other Autodesk products, has evolved and changed over the years. This section looks at AutoCAD's development. The first version of AutoCAD was released in December 1982 and was named Release 1. AutoCAD History - Release The Release 1 release of AutoCAD had two main parts: A solids modeling and drawing package (later re-branded as AutoCAD or "ACAD") that replaced the previous student-developed system called ADT, and A 3D modeling package (later re-branded as AutoCAD Architecture or "ACA") that was intended to be a 3D model-based version of the 2D solids toolset, and is now part of the Autodesk Infrastructure product line. AutoCAD History - Architecture AutoCAD Architecture was a 3D modeling tool intended to help users plan and draw their 2D design in 3D. The 3D modeling process is explained further in the "AutoCAD Architecture For Beginners" tutorial, but in short, a 3D CAD model is a series of 3D meshes that can be created by dragging and dropping geometry. It's like creating a Google SketchUp project. The product has been integrated into AutoCAD

This is a difficult question. I had to try several times. Because I am a beginner in making things, the result is not very good and easily broken. However, today I make a set of crochet-style yarn beaded necklace can be worn by my self. In other words, you don't need to wear another jewelry for the day! Materials A set of crochet-style yarn that you like A crochet-style yarn beaded necklace that you like Beads Sequin 20 x 7mm balls antique brass 20 x 7mm beads 20 x 7mm beaded beads Super glue or any glue A hole punch Crochet hook The process First, I cut a necklace that is the same length as a set of yarn. The yarns is the largest and the smallest. You can choose the yarns that match your skin tone. Then, I sew the center of the necklace in front of the yarns. Put the yarns on the necklace, don't pay attention to the length. Next, I place the crochet hook inside the hole that is the same size of the yarns. When your yarns are tight, you can continue to make it. When it is tight, the yarn is made as a necklace. Put the beaded beads on the beaded crochet ca3bfb1094
