as a trilogy Enjoy TANKFACE Jun 30, 2010, 12:46 PM If you're playing this in Dungeon Fighter Online, you will likely get a save error if you go to the location where S rank classes meet. For example, on the map, if you move west from this spot, you will end up at the entrance to the CTF map. (The CTF map does not actually exist.) To avoid this error, simply start at the CTF map and then jump straight north to rejoin the game. Does anyone know if this error happens in Alliance of Valiant Arms? Animus Jun 30, 2010, 12:53 PM I'm not sure if it's the same problem but I'm getting an error when I leave the CTF map and go back, enter the USG, by the check-in hall. I got the same error at level 5 when I was trying to go back to the CTF map. TANKFACE Jun 30, 2010, 12:55 PM This error is only in DOA. Bartholo Jun 30, 2010, 12:59 PM lol why exactly is it only in DC then, out of all the other games, that error comes up? Bartholo Jun 30, 2010, 12:59 PM For all DOA games. -- Z.L.A.P NEWEST XBLA GAME "Fire Engines is a puzzle/platform game that combines the conventions of a themed adventure title with the kind of challenge that Steam games often fail at.

* Innovative side-scrolling platformers are becoming a thing of the past: pause to think about what you are about to do and do it fast.

* The game's 'action' is based on action/puzzle interaction between a sentry gun and the small, yet deadly, fiery red generator machinery.

* The game features a story line that leads you, the player, on a tour of Paradox." -- Fire Engines is a "puzzle/platform" game that is unlike any puzzle-platforming game you've played to date (however, like all puzzle platformers, it also belongs to the same genre). This game provides a mix of puzzle solving, action, stealth, vehicle driving, exploration, and an excellent story. It's hard to describe what to expect from this game, so I suggest that you give it a try. The more you play, the more you will understand that it is a game that is much more than what it seems.
