[View] [Game] Customer Reviews The Greatest Game Ever Made Review by Hioiren sakamago February 14, 2018 Format: Game This game is just truly everything a reviewer would want in a game, and if not everything what a reviewer could hope for, in a game. As many others have said, the graphics are amazing, the story is touching yet action packed with the characters in it, the music is amazing, the gameplay is addictive yet challenging, the enemies aren't just "pay to win", they actually have an objective to hit the player, the bosses are just bosses, and the scenes are amazing. There's so much more to say, but I'll end this review with simply - and I speak for many as well - that this is truly the greatest game ever made. If you haven't played this game and you really want to like it, you should probably give it a try as the critics on Steam haven't been harsh to it. 7/7 would play again and keep coming back to it. 5/5 would recommend it to a friend Review by chunkiyuki January 28, 2018 Format: Game First off I wanna say I haven't played the game but from what I've seen it does sound really good. Its just nice to see such a good review on this game. So far it looks really good in terms of graphics and its been a while since I had a good rpg game. I don't know much about the story or characters but will look for more information. 7/7 would play again and keep coming back to it. 5/5 would recommend it to a friend Review by vh426 October 17, 2017 Format: Game I played this game, and I am the type of person who loves turn based combat, this game is not turn based, it's a real time combat game. One of my biggest complaints is the "easy" requirement of leveling up. Most of the time it requires killing the same bunch of enemies time after time in order to level. In the beginning it's fun because they're good at killing and in the end it's just frustration when you're not building enough gold to level bff6bb2d33
