EdenGame.net Dec 23, 2017 "Elden Ring is a game that strives to exceed the expectations of anyone who loves games. Its mechanics are incredibly well-tuned, giving a fluid and pleasant experience for both new and veteran players. By the end of the game, I had decided that it was one of the best RPG games I have played in a long time, and I am thankful that it was released in the west." PlayStation Portal Dec 21, 2017 "The action RPG is awesome and it has a very tight single player campaign and surprisingly the content can easily be beaten in about 30 hours for a new player. The creativity and mechanics are also phenomenal, and the game even has a very enjoyable co-op mode as well." PC Game - Fortnite Pro Series and Contenders - Dec 21, 2017 "Elden Ring is one of the most innovative and interesting titles we've seen this year, and the way the whole game builds up to its climactic final battle is worth getting hooked on." Indie Game - Dec 21, 2017 "The combat is exceptionally well-designed and executed, with a unique style that presents a refreshing challenge each time. I'm always impressed with the level of balance and diversity between all three of the combat styles that are available. It also works surprisingly well with the exploration aspect of the game. The combat is fun when you're taking on groups of enemies and the skill trees are also quite interesting. It's always good to see more action-RPGs on the PlayStation 4, as the genre just hasn't seen much love on the console recently and I would love to see this kind of game thrive on the console." Battle of Games - Dec 21, 2017 "Elden Ring is a well-written, well-balanced, fantasy RPG with a few neat twists on traditional mechanics. It's a game that can be finished in a single sitting if you take your time, but it's also one that might get repetitive if you experience a letdown. Despite this, it's still an enjoyable game that deserves credit." RPG Site - Dec 21, 2017 "Elden Ring is a unique spin on the typical role playing experience. bff6bb2d33

The game features: A new action RPG system that takes advantage of console development technology A vast world full of excitement Create your own character that changes your skills and combos Feel the presence of other players and travel with them ((((((((

## **What's new:**

**I would expect the Elden Ring in order to be just as hard hitting as the other two. With it open to individuals from outside the same kind of character classes that the Valarb genera and priest can be played as in order to really work their magic. A lots of people will try to copy you and see if they can improve their level, especially the specially trained ones.**

---

**But if you are playing multiple individuals from untrained characters then they can easily leave you in the dust. They can use a basic strategy all the time when there is no "boss" that goes all day, and only a boss to deal with when there is one. My feeling is that the Elden Ring should at a basic level go down as easy as the Valarb have, But then the ones that want more challenge can use that on each other. This would put a lot of pressure on the individual that isn't getting rolled over and honestly i am not sure if this is really a good or bad thing for the story, but it is a character development level. So they are all knights and then there are the two models of magic.and then the Elden Ring is the warrior type of magic, with more emphasis on tactical. I would think that to be a good RPG you need a type of story, and it not a story to cram the players in a put a dictat on them. The Valarb would be my first choice for easier foes because then with the basic warrior types that they have become less mana dependant, and so you can run a lot more mana and try to accomplish more with your mage. The only really good ones would be those that evolve, or complex ones that are from within the world not from outside it. but your play your own story and have an adventure and the possibilities are endless. Ahhh the Ilhamar...I have seen more than one guide for how this could happen right now in the mmo world. I stand in awe of worlds where civilizations mature by themselves, one by one, without leaving footprints on the Earth. May your people teach others. May they share their technology. May your religion of honor, respect, and tolerance spread among other races. May you remove terrible obstacles to improving yourself, your civilization and the world you live in. TO BE CLEAR: I AM NOT TALKING ABOUT YOUR SHADOW OBJECTIVES OR RPG CHARACTERS!**

Live blood donation can be a rewarding and potentially lifesaving experience for donors and patients. There are a variety of reasons why people donate blood, but some are more ideal for live donation than others. If you're healthy, young and have a little time on your hands, you're a candidate for live donation. Lots of people end up donating blood in the summer because they have more time, and live donation is a great way to help your community. But if you're stuck on that summer afternoon when you need a donation, here's a primer on what to expect and how to get your appointment. **The Basics on Live Donor Recruitment** Blood donation is a great way to give back to your community, both financially and emotionally. But people can suffer repercussions from giving blood if they're not healthy enough to donate. It's important to get a physical and talk to your doctor before donating to make sure you're healthy and have nothing wrong with you besides possibly not having enough time on your hands and a couple of pints of blood in your body. You'll need to give enough time to make sure you're healthy, too; and, realistically, donations are by appointment only. However, there are a few other good alternatives to finding blood at the time you need it. **Donation Options** You have at least two donation options. One is to call your local hospital directly, but there's a chance they might refer you to a live blood donor recruiter. If they do, they can take all the pressure off of you by doing the driving, scheduling and follow-up. Another option is finding an actual live blood donor recruiter, so that you're at the blood drive location and can just have a good time. This can be a very rewarding experience for you, but try to find someone who knows the donation guidelines, such as: **Why live?** You can give more blood in less time when you donate live, which means you can donate
