

The scenario is set between the mid and late Third Age, and is centered around a battle of heroes. Twilight has long passed over the lands of Alethi Rûm, and the strong and cunning civilization thrives thanks to the skills of its people. Meanwhile, a solitary traveler washes up on the shores of Alethi Rûm, injured and clearly ailing. In order to heal him and continue his journey, he is taken in by the local people, and ends up being fostered by their god, who then transforms him into a mortal. While he is recovering, a young boy from the village disappears. Not only does the young traveler suspect that he knows what has happened to him, he is also plagued by several dreams. With that, he sets out on a journey to the lands beyond Alethi Rûm, along the forest called Farthen Dûr, to solve these mysteries. "A wonderfully-crafted ARPG" PC GAMER ENTERTAINMENT "A wonderful world, carefully crafted for a sense of adventure, and it feels great to take on the role of an "Average Joe"" New U.K. Magazine "The Review Hub" calls the game "A Wonderful World" and "Well-Crafted Action-RPG Game" and expresses its desires that an English localization for the game will be made. GamesRadar (Germany): "Yet another great FE action-RPG. The feeling of playing an RPG is an extremely fulfilling one." GearNuke (Germany): "It remains to be seen whether this will be a gold standard game for RPG gaming or whether it will simply be a good FE game. I think the former is more likely as the title suggests the action aspect is core to the game." Play-Asia (Japan): "With a storyline and design that aim for and arrive at a level of quality on par with many top-tier titles, Elder Scrolls V: Skyrim, there's little doubt that the game will be an immense success both in Japan and in North America." RPG Site (Asia): "The game still serves as a solid starting point for a new roleplaying lover, but it is the meticulous attention to detail with which it is put together that merits its very own appreciation. From the sound effects to the in-game artwork, everything about this game is done with extreme care." This Japanese site offers a pretty accurate demonstration (the English voice actor is done quite well) of the voice acting for the game. Game Informer (North America): "The graphics alone are reason enough to play the game, but the combat and exploratory systems offer a level of depth that's hard to come by in most of today's RPG games." 148apps (China): "While all of the game's features (on top of its graphics) are extremely solid, the fact that you'll be able to craft your own weapon and armor with random stats is truly an amazing feature, and pushes the game firmly into the "RPG" genre" Chinese Website Gameisviral.com: "The RPG elements are definitely present in this game. However, you'll need to broaden your outlook. This game, above all, is a real RPG in the truest sense of bff6bb2d33

£40.00 0 in stock Adam Blackstone Adam Blackstone has written nothing but for the last ten years—unless you count the never-released Grindhouse game based on Mummy 2 (which could count, if I really want to). He can't count on his fingers either, so will have to hire someone. Marco Polo Marco Polo is a story game and an RPG. You are a medieval merchant in the service of Kublai Khan, attempting to discover China and return home safely with riches. You can swap from your Mark One RPG character to a cybernetic "Omega" slave/companion, and as you meet new people and enemies you can activate your Omega to a number of "fields" to receive bonuses and special attacks. The game is currently in early access but mainly features a single player mode. £49.00 0 in stock Ryan Pope I hear the eponymous Dante has been dragged kicking and screaming into an afterlife dating sim. Correlation of plasma aldosterone with circulating cortisol and corticotrophin levels in patients with CAH. Concurrent blood samples for estimation of plasma cortisol and aldosterone were obtained in 18 patients with CAH before and after short term ACTH stimulation. An inverse correlation was found between plasma cortisol and plasma aldosterone levels in each patient. There was no correlation between either basal and post stimulation plasma cortisol and aldosterone levels. Plasma aldosterone levels after ACTH stimulation were not related to the duration of the pubertal phase, the sex, age at diagnosis of CAH or the degree of precocious puberty. The results suggest that in patients with CAH elevated plasma aldosterone levels after ACTH stimulation are non-specific and lack pathognomonic value. Animals Speak...
